Dario Giraldo Burn Up List For Week 4 --   01/25/2016 – 01/31/2016
PAP 1   C201601   Section 2

Was fun and interesting to be part of the last goto meeting of this course. A lot of exchanges happened and truly is sad that it was the last one. Also, this is the last week of the course with many items being due on PaP and CM.

Although I continue to evaluate re-organizing my professional footprint, at this time it will not be officially modified because until I can develop mobile applications for modern devices, I cannot state that I can perform those tasks.

However, I have begun to write content and will have all of the information ready so when I can actually develop mobile applications (even if is in one platform) then I can quickly modify it.

Since I already have a strong reputation in my field (today is referred to it as 'branding'), need to evaluate how to merge one with the other. Will work a little harder on the last anchor points document so it will contain more specific details on items that I will work on to better define the items in the ePortfolio.

For the Call To Action – Growth Quote or Phrase that reminds to never stop learning will be going to antiquity. It will be fun to research it.

Will be working on the items left to complete the Career Module by midnight Friday. So it will be interesting to see how it comes out.

Looking forward to read the growth quotes and reply to several posts.

Also, plan to complete the project spreadsheet with accurate figures and provide a document in pdf format with a link to the GitHub REPO repository by mid night Saturday.
